# Welcome to the 6th Annual Desert Open Studios

January 23–25, 2026  
(Friday through Sunday)  
11 AM–4 PM each day

## WHERE HORIZONS MEET

The Coachella Valley is a place of meeting — where desert and mountain, east and west, tradition and innovation converge in one wide, luminous space. This weekend, as 158 artists open their studios to the public, that convergence becomes tangible. Each open door is an invitation.

Step into our wild, untold side of the desert, where art isn't just something you view; it's something you experience, question, and feel. From Coachella to Snow Creek, from small backyard studios to expansive creative sanctuaries, this weekend reveals the heartbeat of the valley through the hands and visions of its artists.

## A BRIDGE ACROSS THE VALLEY

Our mission is simple yet essential: **to unify the East and West Valleys through art.** In a time when the wider world often fractures along invisible lines, creativity can bridge those divides. Each open studio, each shared conversation, each moment of connection becomes a quiet act of resistance against polarization. Here, art stands as common ground that speaks across difference.

## KEEP THE DOORS OPEN

This handbook is your map for the weekend and for the year ahead. Enjoy it this weekend — and if you run out of time or simply want to revisit what inspired you, every page connects you to the artists who make our desert a living, breathing gallery.

In these divided times, the act of opening doors carries quiet power. When we gather around art, we affirm

something larger than ourselves: that unity doesn't just erase difference but celebrates it. Here in the Coachella Valley, creativity reminds us that we belong to one another.

## NEW FOR 2026

This year, we're also delighted to introduce **Curated Tours** designed by respected figures from the art world and our community. Each tour highlights a distinct theme and perspective, guiding you through the desert's creative landscape in new and unexpected ways.

Whether you follow a curated path or chart your own, let curiosity lead your adventure. There's discovery at every turn.

**Thank you for supporting Desert Open Studios 2026; you are an important part of our community.**

Desert Open Studios and our annual tours are made possible by a group of dedicated volunteers and advisors.

## The Materialists

**ELIZABETH ARMSTRONG**

*Independent curator and former director of the Palm Springs Art Museum*

Step inside the studios of five exceptional artists — “materialists” whose work transforms everything from raw organic matter to repurposed relics into powerful visual statements. Spanning sculpture, painting, fiber art, and mixed media, each artist brings a deep dedication to craft and concept. Some draw inspiration from ancestral traditions; others reimagine the meaning of discarded objects — yet all forge connections that transcend time and place.
